WALK & RUN
8:30 am

PRIZES! ACTIVITIES! FOOD & FUN!

Tips to Save Energy

- Install a programmable thermostat
- Use LED light bulbs with the ENERGY STAR label
- Air dry dishes instead of using the dishwasher's heat dry
- Turn off your computer and monitor when not in use
- Plug home electronics, such as TVs and DVD players, into power strips and turn off when not in use
- Lower the thermostat on your hot water heater to 120°
- Take short showers instead of baths
- Wash only full loads of dishes and clothes
- Drive sensibly. Aggressive driving (speeding, rapid acceleration, and braking) wastes gasoline
- Look for the ENERGY STAR label on home appliances and products

Water Conservation

Here are some ideas to help conserve water:

- Avoid watering during the heat of day and during times of wind. It is better to water during the the day than when there is wind because wind will evaporate water much faster than the sun
- Adjust your watering schedule/times as the weather changes
- Aerate your lawn to increase the amount of water the ground soaks in
- Water grass separately from other landscaped areas
- Invest in a smart controller
- Place mulch in planting beds to reduce evaporation. This also reduces weeds
- Leave small grass clippings on the lawn as a nutrient source
- Fertilize lawn in the late fall with a slow release fertilizer. Do not over fertilize
- Use hardscape or xeriscape landscaping that requires less water
- Plant drought-resistant trees and plants.
- Control weeds, they steal a lot of water
- Increase the mowing height of your lawn mower. Longer grass grows deeper roots, uses less water, and withstands the stresses of hot dry weather
- Clean driveways, patios and decks with a broom or blower instead of a hose

Visit spanishfork.org/conservewater for more ideas and information!

Power Outages

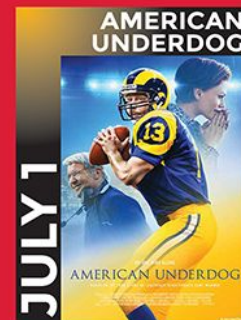

Over the last decade the City has reduced the number of outages by more than half, but it is impossible to eliminate all possibility of an outage.

We encourage all to have flashlights, alarm clocks, and radios. It is also important to protect electronic equipment like televisions and computers with surge protectors. Make sure that dust doesn't accumulate as that can cause a fire hazard.

*Ghostbusters: Afterlife is the edited version for family-friendly showings.

2022 Movies in the Park

www.spanishfork.org/movies • Located at City Park 49 S. Main St.
