SUMMER UTILITY BILL REMINDER

Summer is here and that means increased air conditioning and pressurized irrigation use. This increased usage leads to larger utility bills. You may notice that there is a lag between your utility usage and when you pay for them. Bill timing means that your usage at the end of June isn't paid for until almost the end of August. Because of this timing, the largest bills are generally those that are due on the 25th of August, September and October. Don't forget to budget for the larger utility bills that come at the end of summer.
