Gutter Clean-Up

Please keep the gutters in front of your home clean and try to clear out under driveways that bridge over the gutter. A clean gutter:

- Makes the community look nicer
- Reduces flooding in rain storms
- Reduces pollution in our streams
- Reduces storm drain maintenance costs

Thank you for all of your efforts to make our community a great place to live! Some other ways to avoid polluting streams and groundwater include:

- Keeping household chemicals indoors
- Not disposing of harmful chemicals in the ground, gutters, or drain boxes
- Avoiding flushing household chemicals down the sink or toilet
- Sweeping/blowing fertilizer out of street gutters after fertilizing
