Tabitha's Way Local Food Pantry

In need of food assistance during the summer? Come visit our pantry! Scan the QR code, visit our website, tabithasway.org, or call us (801) 709-8573 for more information.

Sounds of Summer

Spanish Fork's Sounds of Summer kicks off on Friday, June 7. Food trucks will start at 5 p.m. Then at "dusk" we will show *Top Gun: Maverick* (edited for family-friendly showings).

Join us at City Park every Friday in June and July for Sounds of Summer with food trucks, movies, and music!

Library Corner

The library will be closed on Monday, June 17 in observance of Juneteenth. We will reopen on Tuesday, June 18 at 10 a.m.

All Ages Events

Family Fridays: Fridays at 4 p.m. Join us for a different activity each week!

June 17: Movie Showing: *Wish* (2023)

June 14: Pokemon Club

June 21: Makerspace

June 28: Movie Showing: TBA

Summer Reading Program: Read and attend teen events to earn prizes. Register at the library or the Beanstack Tracker App!

Children & Tween Events

Tiny Tomatoes Club: Sat. June 8 at 9 a.m. Spanish Fork Community Garden (Ages 1-5 and a caregiver).

Visit the children's page of our website for more information on programs!

Teens

Valorant/League of Legends Club: June 6, 6 p.m. Teen-led gaming club.

TBR Jar Craft: June 7, 4 p.m. Create a "to be read" book jar.

Chess Club: June 18, 7 p.m. Ages 8 and up. Those younger than 12 must be accompanied by an adult.

Paint by Sticker: June 20, 6 p.m. Recreate Bob Ross paintings with stickers.

Adults

Zentangle in the Park: Every Wednesday at 9 a.m. from May 29 to July 10. Join us for a quiet morning in City Park, under the trees by the rose garden. Bring your own blanket or chair for the grass! Supplies are provided (or you can bring a personal sketchbook).

Skills for Life Workshop: Tuesday, June 11 at 7 p.m. A hands-on workshop to change habits with a certified rapid-eye technician and life coach.

Embolden You Seminar Series: Raising Little Food Explorers: Thursday, June 13 at 7 p.m. For parents looking for support and community while learning! Guest lecture by a certified nutritionist, followed by snacks and a chance to chat with other parents.

Primary Election Information

Primary election day is June 25. Ballots will be mailed the week of June 4. Track your ballot, find voting requirements and drop box locations, or learn how to register or update your voting registration at vote.utah.gov.

Nighttime Wind Boundary Map

Please reference the Nighttime Wind Boundary Map for water conservation tips. Wind increases at night so be aware of when to water.

The map can be found on the Spanish Fork website: spanishfork.org/conservewater

Public Works

Power Outages Power outages can be caused by natural events like windstorms, lightning strikes, and heat waves. They may also be caused by transformer or other equipment failure. Over the last decade the City has reduced the number of significant outages by more than half, but it is impossible to eliminate all possibility of an outage.

We encourage all residents to have battery-operated flashlights, alarm clocks, and radios. It is also important to protect electronic equipment like televisions and computers with 1200 Joule or more surge protectors. Please make sure that dust does not accumulate on surge protectors and power strips causing a fire hazard. Reviewed by Power & Light Division Manager Reviewed by Public Work Director

Water Conservation The best way to conserve water is to change how we water our yards.

-Avoid watering during the heat of day and during times of wind. In areas that are windy at night it is better to water during the day. The wind will evaporate water much faster than the sun. Please see the [Nighttime Wind Boundary Map](#) on the second page as well as the City website. -As the weather changes, adjust your watering schedule accordingly. -Aerate your lawn to increase the amount of water the ground soaks in. This is best done in the spring or fall. -Water your lawn separately from other landscaped areas. -Invest in a smart controller. -Place mulch in planting beds to reduce evaporation. This also reduces weeds. -Leave small grass clippings on the lawn as a nutrient source. -Fertilize lawn in the late fall with a slow release fertilizer. Do not over fertilize. -Use hardscape or xeriscape landscaping that requires less water. -Plant drought resistant trees and plants. Ask a local nursery about Utah-friendly landscape materials. -Control weeds. Weeds use a lot of water. -Increase the mowing height of your lawn mower. Longer grass grows deeper roots, uses less water and stands the stresses of hot dry weather better. -Clean driveways, patios and decks with a broom or blower instead of a hose. Tips to Save Energy -Install a programmable thermostat. -Use LED light bulbs with the ENERGY STAR label. -Air dry dishes instead of using your dishwasher drying cycle. -Turn off your computer and monitor when not in use. -Plug home electronics, such as TVs and DVD players, into power strips and turn the power strips off when not in use. -Lower the thermostat on your hot water heater to 120° F. -Take short showers instead of baths. -Wash only full loads of dishes and clothes. -Drive sensibly. Aggressive driving (speeding, rapid acceleration and braking) wastes gasoline. -Look for the ENERGY STAR label on home appliances and products.
