At the Sports Park, ball fields are used by City Recreation teams for league games and practices. If the field has been prepared for games, all park patrons must stay off.

SPECIAL EVENTS RENTALS

A special event is defined as a non-city sponsored event which used City owned facilities in order to accommodate the expected number of participants/spectators. An event which requires additional accommodations, whether or not supplied by the City, such as tents, temporary buildings, etc. is considered a special event. Examples are dances, concerts, company parties, large church gatherings, races and similar events. A special event is not a private social gathering (family reunion, etc.) which uses a public park, pavilion or other facility at or below its posted occupancy level. An event which anticipates attendance of 200 or

more persons will generally be considered a special event. Special events have a different deposit and pricing structure, and require a special events application that is subject to approval by the Parks & Recreation Director.
