FY 2019 Tentative Budget

May 1, 2018

Dear Mayor and City Council:

It is my pleasure to present the tentative budget for Fiscal Year 2019 for Spanish Fork City. This is a balanced budget that provides for the full on-going operation of the City. The City's Department Directors and Division Managers have given serious consideration to the next year of operation and this budget provides the residents of this city with the same first-class services they expect and enjoy on a conservative budget they can live with.

This marks the first budget of the 2019 Fiscal Year, but this will not be the last. The FY 2019 budget will surely be amended at least two times to re-allocate funds for projects that were not finished in FY 2018. We call these carryover projects and often they make the budget feel artificially inflated, but such is often the case where our budget year spans the summer, when most construction type projects are in full swing.

This first budget of a fiscal year however, marks each departments' view of the next 12 months and identifies priorities of the council and staff to maintain the quality of service delivery. This balanced budget features a number of accomplishments that include several major capital projects in the enterprise funds, creating several new positions, a few rate changes, and a few proposals for the future. I will explain all of this in my letter.

Personnel

The most important asset of Spanish Fork City is our employees and volunteers. We have employees of many types, Full-time, Part-time, Seasonal and our ever-famous volunteers, which include our firefighters. Through these great individuals we are able to accomplish so much. The number of individuals this City employs may be staggering to some, but as you consider the expansive nature of the work we do, it becomes easier to understand. In the calendar year of 2017, we paid 988 unique individuals for work. Some may have only worked a few hours at the pool or as a crossing guard, as a referee, or as a scorekeeper and others are full-time employees who may have worked all year. Calculating all the hours that all types of employees are budgeted for, we have just over 302 full-time equivalent employees that work for the City!

Raises and Benefits

This budget includes funds for employee raises. Our current pay system was adopted 12 years ago and gives raises to employees based on their performance. We call it a merit-pay system where no raise is guaranteed but employees are rewarded based on their performance. This system has paid dividends by encouraging and rewarding productivity. It is important to note and understand that the vast majority of our employees will receive a raise, because they will have earned it - and that is a good thing! Some employees will not receive a raise and their supervisors will work with them to overcome any deficiencies. Our goal will be to eventually give that employee the raise they missed because he or she will have made the necessary improvements in their performance.

Probably the biggest news to share with this budget relates to our health insurance. Two years ago, we started a new health insurance program called SelectHealth Share. This innovative program required the City, as the Employer, to meet certain requirements and it also required the employees to do the same. By contract, our renewal for this third and final year of the contract should have been 4%, just like last year. But, the plan, with all its participants, is doing so well, SelectHealth recently announced that our renewal this year would only be 2%. Just as important, they informed us that our renewal for next three years will be contracted and locked in at 2.5%. We were projected to save some \$675,000 during the three years of the contact, but these announcements increased that savings dramatically. Our employees continue to meet and surpass all the requirements which means they and their families are generally improving their health through preventative care visits to doctors and being active every day.

All other employee benefits have been renewed at a similar or no cost renewal for this year.

New Employees

This budget includes nine new full-time positions and changes to one benefited position, plus increases in part-time and seasonal hours. I will provide a little description for the full-time employees requested.

Parks and Recreation are requesting four Maintenance Worker positions, one to be located at the Cemetery, one at the Fairgrounds, and two in the Parks Division:

Cemetery. Burial numbers continue to rise and the cemetery has a need for consistent weekend help. So far this year 49% of our burials have been on Saturdays. Having two employees work at an opening and closing is critical for the safety of the employees. The Cemetery has converted a part-time position to this full-time position. Last year we had 42.60 burials per number of FTE employees which is second highest in the county.

Fairgrounds. Events and demand at the fairgrounds are growing. Nick and Landon are doing a superior job inviting and retaining new users of the different venues. One challenge of the fairgrounds is a consistent Saturday presence for the many events. We had weekend events 50 of 52 weeks last year and that has now become the norm. Last year we hosted 676 events which is 150 more than in the prior two years. The fairgrounds has requested to also convert a part-time position to a full-time position to have additional year-round help, especially to split the weekend assignments.

Parks. The Parks Division maintains all the rights-of-way properties around the City. The City inventory of property along our rights-of-way continues to grow and new landscaping will be added at several new locations throughout the City. This position will increase our ability to maintain those properties. The second position is being requested at the Sports Park. This position is requested to begin in early spring 2019 after the completion of the new baseball fields, pickleball courts, and open grass area of the current phase of construction.

Parks Projects Manager. There are several landscaping projects each year requested around City properties, such as at storm drain basins, around substations, in roundabouts, park strips, or other locations. This position will be able to manage and build all aspects of parks and landscaping projects.

The Community Development Department is feeling the growth in the economy, both residential and commercial. They have requested another building inspector and planner.

Building Inspector. This budget includes a new building inspector who would become our fourth inspector on staff. Our residential and commercial growth continues to be strong. Our inspectors performed 3,992 inspections in 2014; 5,266 inspections in 2015; 5,390 inspections in 2016; and 7,859 inspections in 2017. 2018 has started just like last year and we will continue to see high commercial growth including a hospital and hotel. The fourth building inspector will decrease our dependence on outside consultants and will decrease our plan review time.

Planner. Much of what has been said about the need for a building inspector can be said about adding a second planner. We have been discussing the need to add a second planner for 3 years. Now is the time we need to fill that request. With additional subdivision plats, continued commercial growth, and redevelopment occurring all over town, this position is needed to assist those that come to the city with development requests. Development bears the costs of these positions thru building permits, development review and various application fees. There are sufficient funds for these positions through our current rate structure and we are not proposing any rate changes.

The Public Works Department is requesting two employees: a bluestake and mapping technician in engineering and a water meter technician in the Water Division.

Bluestake Technician. The city bluestakes drinking water, power & light, pressurized irrigation, sewer, SFCN, and storm drain. Most cities our size in Utah rely on districts and private companies for communication services, power, water, and sewer. It is commendable that our engineering office has been able to provide bluestake services for maximum number of utilities with the least number of bluestake employees of any other city, one.

That being said, bluestakes have almost doubled in the last 5 years. We have tried using part time help but that has not worked. One of the reasons why our bluestakes are so efficient is that we use advanced GPS equipment to locate utilities. This same equipment is needed to map our power lines so we intend for bluestakers to also update our powerline maps when they are caught up, particularly in the winter.

Water Meter Technician. Spanish Fork has good drinking and pressurized irrigation water systems but has a notably small staff. A neighboring city has half the connections but twice the number of full and part time employees. Our employees are thereby responsible for four times more water system than the employees in the other city. We are very proud of this but find we are always behind in metering. We are making significant upgrades to our meter system and are adding a full time meter technician to be over the new system.

Revenues

The budget consists of two types of funds: (1) the general fund or typical government operations such as police, parks, recreation, library, etc. and (2) enterprise funds that have a separate revenue source that covers all or the majority of that fund's expenditures. Major

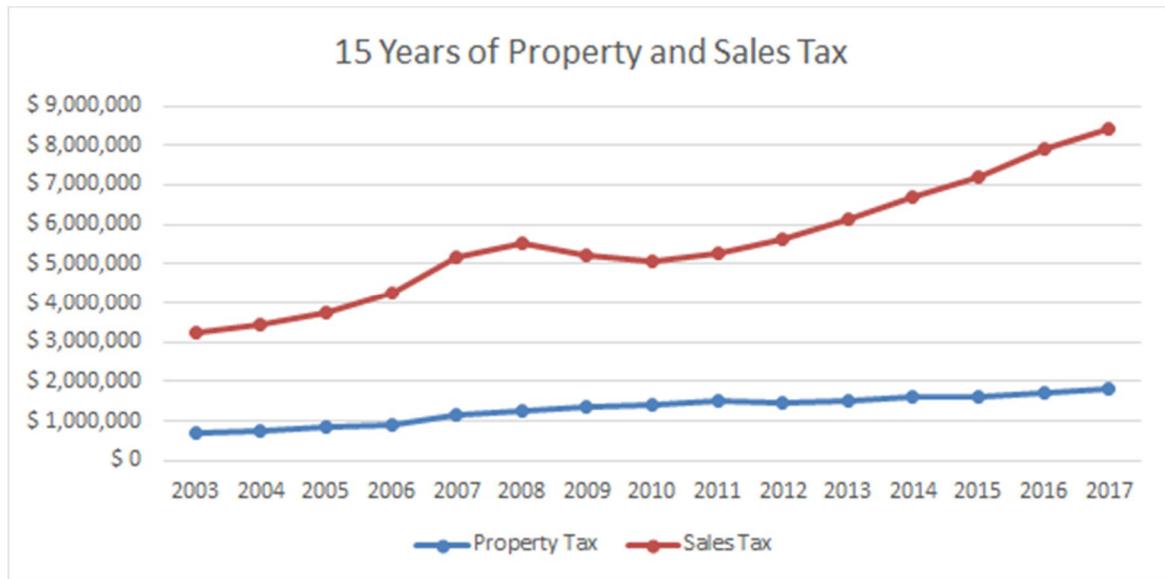

revenue sources in the general fund are sales taxes and property taxes, indirect services, and dividend transfers.

General Fund

The general fund continues to see a healthy increase in sales tax growth with this strong economy. The largest challenge to sales tax is that it is an elastic revenue or when the economy is strong so is sales tax revenue, but when the economy slows down, so does the sales tax revenue. This budget anticipates a modest sales tax increase of 4% to \$7.4 Million. A portion of the sales tax revenues generated from some stores in the Canyon Creek Commercial Center are reserved as payments to the developer to reimburse infrastructure costs in and around the project area as a part of the Canyon Creek Economic Development Agreement. The amount available to the City increases each year. The full sales tax from that area will be available to the city in FY 2023.

During the most recent legislative session, the legislature passed SB 235 to fund homeless shelters around the state. The simple essence of this bill is to provide funding for homeless shelters in large part from the cities and towns. Cities receive a total of 1% of sales taxes collected at the point of sale. That 1% is made up of two parts and cities receive half of that 1% based on the location of the purchase (we often refer to that as the *50% point of sale*) and the other half is distributed based on each city's population (we refer to this as the *50% population*). SB 235 will automatically take 1.8% off the top of each Utah City's population portion of sales tax revenue. All-together, this will take about \$5,000,000 from the general funds of Utah Cities and funnel those funds toward homelessness. To Spanish Fork, this bill will take an estimated \$65,600 from our general fund in FY 2019. This number will grow each year and by law is currently capped at \$200,000. \$65,600 is equivalent to shutting down or taking away three new stores in the Canyon Creek Development, such as Famous Footwear, Downeast Home, and Petco. We believe the effort to fund and work against homeless is one of the noblest causes, but we struggle with the method the legislature chose to fund it. This is the second "tax" on cities' population portion of the sales tax and we wonder what the next cause will be and how they may choose to erode this source more.

The most stable revenue source to the general fund is property tax. The City's rate remains extremely low at .000955. The average property tax rate in the county is 77% higher than Spanish Fork at .001694 and there are only two are towns (not cities) in the county with lower property tax rates: Cedar Fort (.000924) and Goshen (.000678). On the next page is a look at the growth and stability of property tax compared to sales tax during the past 15 years.

Notice the rapid growth of the Sales Tax the last few years and the hump and even decline in sales taxes during the great recession. Sales taxes were flat or negative for about four years. On the other hand, property tax revenue has grown slowly and steadily each year. While this growth in property tax is consistent, it does not keep up with inflation or increasing costs in the economy.

This budget projects modest growth in property tax from new growth, or the change in use of the property from one year to the next. That growth is estimated at only \$60,000. To give context to that number, the total needed to fund increases only in the police department for raises and increases to their respective benefits totals \$77,715.

For the last several years, the council and staff have been discussing the timing and need for a second fire station and additional EMS and fire resources, including full-time employees. Currently, the council has given direction to staff to begin planning for the second fire station. In FY 2018, land was acquired for the fire station and the council formed a committee to study what the building would need. There are funds allocated in this budget to design the facility and we project that the building will bid in early 2020 and completed later that year. Currently, we estimate the building and new equipment to total \$6,000,000.

This budget proposes to hold the property tax rate, and that any funds collected from holding that rate be transferred to a capital projects fund to build the fire station. We estimate the increased revenue to be \$145,000. The impact on the average household will be \$0.84 per

month. Our plan is to save this increment to the Fire Station Capital Project Fund until the station is completed in FY 2021 (for the next 3 fiscal years), saving an estimated \$435,000.

This money, combined with funds from other sources, including land sales, reimbursement from state and federal projects, and savings from the general fund, we plan to pay cash for the building and should not need to bond for the building or the equipment.

If the Council chooses to hold the property tax rate, the budget process this year will be slightly different than in past years. We will still hold the required public hearing for the budget on June 5, but the budget will not be adopted until after a Truth-in-Taxation hearing that would be held in mid-August.

This tentative budget also proposes a 3.5% dividend transfer to the general fund from each of the enterprise funds, which include Water, Wastewater, Electric, Stormwater, Solid Waste, and Broadband. This dividend is the result of the taxpayers' investment in the City's utility infrastructure. These funds are used each year to cover costs of important city services like police, fire, library, senior center, parks and recreation, and other city functions. The utility transfer of funds keeps property taxes low in Spanish Fork. If City utility services were provided by private utility vendors, these dividends would instead be paid to the private investor-owners. Because Spanish Fork taxpayers are the investor-owners, these dividends are used to offset what otherwise would be a significant increase in property tax rates.

The amount of the transfers is as follows:

	Dollar Amount
From the Water Fund to the General Fund.....	\$194,063
From the Sewer Fund to the General Fund.....	\$136,362
From the Electric Fund to the General Fund	\$863,340
From the Storm Drainage Fund to the General Fund.....	\$ 77,965
From the Solid Waste Fund to the General Fund.....	\$ 69,364
From the Broadband Fund to the General Fund	\$190,801

Enterprise Funds

Revenue in the City's enterprise or utility funds continues to be steady and consistent. Revenue to those funds are generally sufficient to provide high quality services that the residents expect. This budget contains changes to the rates and fees in our enterprise funds that will be discussed further in the next section. Revenues in the enterprise funds are reviewed often. When we determine that a rate is generating more money than is needed, we propose to decrease that rate. When costs of providing the utility service increase and revenues fall short, we propose to increase that rate.

Rates and Fees

This budget includes two rate increases and one rate change that will be paid by residents and others that use City services. I will discuss each change below.

Electricity

This budget anticipates the residential electric rate changing in February 2019. The proposed change is calculated to be revenue neutral and allows for growth in solar panel installation and will also encourage energy conservation. In 2017, after several meetings with residents and council work sessions, the Council decided to create a tiered electric rate structure and directed staff to implement a slow change to our rate structure. The first change went into effect in February 2018 and will take a total of six years to fully implement. The next change is planned for February 2019 as outlined.

Current rate structure:

Base Rate: \$8.90 per month Usage Rate: \$.08163 per 0 to 500 Kwh

\$.08464 per 501 to 1000 Kwh

\$.08882 per 1000+ Kwh

Proposed rate structure:

Base Rate: \$11.80 per month

Usage Rate: \$.07676 per 0 to 500 Kwh

\$.08279 per 501 to 1000 Kwh

\$.09114 per 1000+ Kwh

Sewer Rate

The Wastewater Division continues to prepare for changes to the plant and operation mandated by state and federal regulations. The City's wastewater treatment plant will be required to meet phosphorus emission levels set at 1 part per million (mg per liter) by the year 2021. In order to meet that requirement, the plant must undergo a few upgrades, including the addition of a new chemical process to remove phosphorus from the water. The proposed rate increase is the last of three increases to the rate and should allow the wastewater utility to meet all new requirements.

Current base rate: \$16.59

Proposed base rate: \$16.95

Current usage rate per 1,000 gallons: \$1.52

Proposed usage rate per 1,000 gallons: \$1.66

Streets and Storm Drain

This budget proposes an increase to the residential streets and storm drain rate to maintain current operating levels. The City has invested over \$11 Million in our road infrastructure during the past 11 years and the Council's direction has been to maintain the current service level and keep a high quality road network. The general fund contributes \$875,000 toward street maintenance and the proposed streets and storm drain fee increase will add funds to address sidewalk needs around town

Current rate: \$8.45 per month (per ESU)

Proposed rate: \$9.82 per month (per ESU)

SFCN Fiber-to-the-Home Project

SFCN has completed two years of the four year fiber-to-the-home system upgrade. They have upgraded almost 40 nodes (neighborhood areas) which is nearly half of the city. SFCN has budgeted \$1,000,000 again this year toward the upgrade project, which will complete another 20 nodes. Most amazingly, the money for the project comes from the existing rate structure and residents do not have to pay any additional money to receive internet speeds at the speed of light. This is unheard of in the industry! With the suite of services, including Internet, telephone, and cable TV, SFCN continues to save the residents of this community over \$3,000,000 a year.

Capital Projects

This budget includes several capital projects that will add or improve services at several City-owned facilities such as the sports park, golf course, cemetery, fairgrounds, and more. Below is a list of some of those projects in the general fund:

Sports Park

The addition of sixteen pickleball courts and two little league baseball fields. This project was started last fiscal year and will be completed in this budget year.

Cemetery

The development of the cemetery loop road will allow the opening of two new blocks of the cemetery. This will allow us to maintain a casket carry distance of 100 feet or less, which is consistent with the other areas in the cemetery.

Fairgrounds

Dressing up the front of the Small Indoor Arena, High Chaparral and Tennis Court Building.

This is the second of three years for this project.

Renovating the High Chaparral Restrooms.

Parks

Refurbish the tennis courts at the Sports Park.

Bleacher covers at Swenson Sports Park.

Legacy Farms Park Construction.

There are many capital projects in each of the utility enterprise funds. Each has been identified as necessary for the on-going operation of the utility. The utilities often save money for a few years in order to complete some of these projects. There are no bonds or debt to be issued for any capital projects.

Capital projects is one area where the City's budget has grown over the past few years. This is to be expected in a community that is growing. The timing of construction and budget years often don't match up, requiring us to budget a project for multiple years. This can artificially cause the budget to appear inflated and some may wonder why the budget has grown so much from one year to the next, especially as you compare actual expenditures from last fiscal year to a revision budget. For example, the current budget has a \$4,490,000 in carry-over projects from last year and we anticipate identifying other projects that will need to be carried over with the first revision. A carry-over project is a project that was budgeted in FY 2018 but was not completed (the money was not spent) and it is budgeted to be spent again this year. It may appear that the costs for a particular project have doubled, but that is not the case, upon further review of the budget, you find the project was not completed and funds were not spent and need to be re-budgeted the next fiscal year.

Future Fire Station and Library

As mentioned earlier, a capital project fund has been created to begin saving money for and preparing to build a fire station. Staff and council have created a plan that will enable the City to construct a fire station in the year 2020 and pay cash for the building and the equipment instead of bonding for it. Funds will be saved for the next three years into the capital project fund for this purpose.

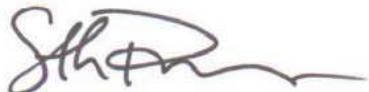

The Council has identified a new library as another needed community facility. A site has been identified and is being pursued by staff, under the Council's direction. Funds have been allocated in the land acquisition fund to purchase the site if it becomes available. The Library Director and her staff have done an excellent job of maximizing the library's space and resources, but some of the library's challenges cannot be fixed at its current location without severely altering City Park.

Conclusion

I have enjoyed working with the Department Directors and Division Managers to review their projects, needs, and vision for each of their departments. This tentative budget allows each department, division, and even each employee to continue to perform their jobs with the utmost pride and safety. This budget also provides for the growth and enhancement of several of our services that we provide to our residents. Our employees are committed to providing the highest quality service to the residents and businesses of Spanish Fork. They are equally committed to providing that service at the best cost. I am honored to work with them all.

The proposed budget is hereby submitted for your review. I look forward to discussing any details of the budget further with you in the coming weeks, preparatory to its final adoption.

Respectfully,

Seth Perrins
City Manager
